

Data Science Library

Agenda

1. Why libraries are required
2. What all are DS libraries
3. How to install
4. Import & using
5. ML algo or code using the library.

Sqrt of a number

$$\begin{array}{r} 5 \\ \hline \end{array}$$

⇒ Very complex

⇒ implem can be made much more efficient

⇒ There can be more than one solⁿ

⇒ Functionality might not be provided by python.

Time & efficiency also plays a lot of imp. role

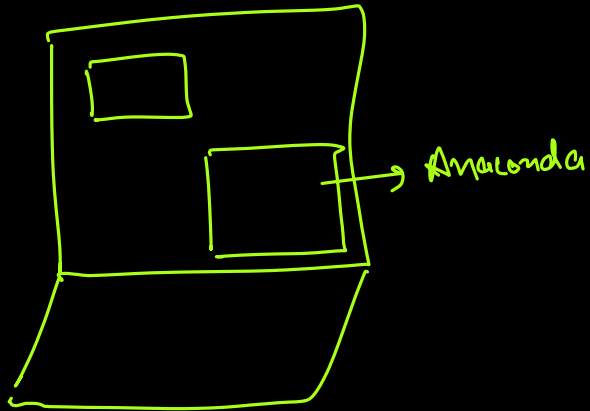

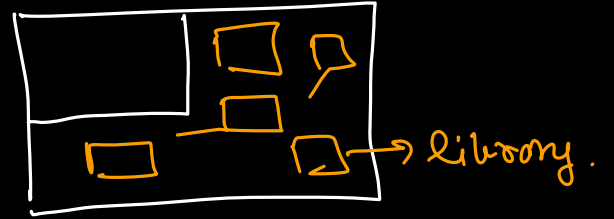

10000 digit ⇒ 5 min

↘ 5 sec ✓

python

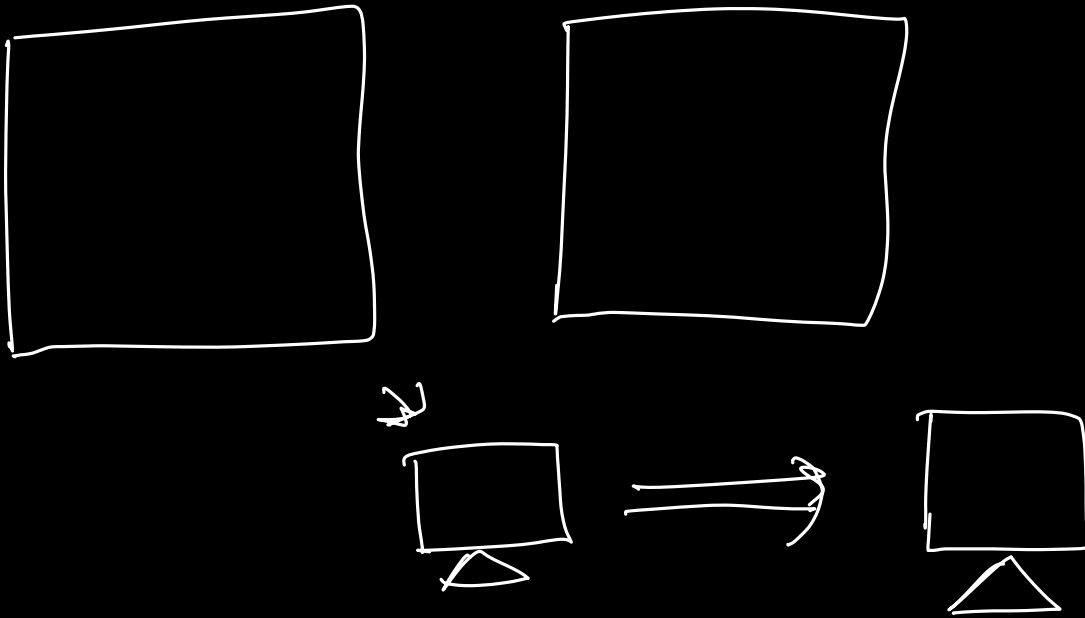

anaconda

`pip install <package-name>`

Environment

libraries

Import

Install

Environment

Data Science

numpy

Pandas

matplotlib

seaborn / plotly

skit learn.

tensorflow

Keras

nlTK

pytorch
